health and social care regulation

We have unrivalled experience in this field, working across the whole regulatory and care sector (we have been "ranked no 1 firm in the UK for Health & Social Care" - Chambers 2009). We are committed to delivering the highest quality services and our dedicated Health & Social Care Regulatory team offers a national practice spanning our three offices (London, Bristol, Birmingham), 24 hours a day, 365 days a year.

You can rely upon our experience and in depth knowledge of the health and social care sector to advise you upon matters ranging from those that are operational, requiring an immediate response (eg urgent applications to justices of the peace), to those that require longer term strategic advice. We are easy to deal with and are approachable, with Neil Grant, the lead partner in this area recently being described as attracting clients with his "highly amiable service" (Chambers 2009).

Our experience of acting for public and independent health and social care providers as well as health and social care regulators enables us to promote our clients across government and the wider regulatory arena and to facilitate joined-up working between policy makers, agencies, service regulators, professional regulators and providers.

Services we offer within health and social care regulation
 registration with the care quality commission
