ProAct 23

Navigating the Procurement Act 2023

On 24 February 2025, the Procurement Act 2023 came into force, marking the most significant overhaul of procurement law in recent memory.

At Bevan Brittan, we've been actively involved from the consultation stage through to providing ongoing guidance on transitional arrangements. We've kept our clients informed throughout, with resources such as "Procurement Bill Bytes" and our more recent Talking Heads series.

We're committed to helping you navigate the new Act

We understand the challenges our clients are facing now that the new Act is in force. Through our bespoke training programmes, delivered both in person and online, we've gathered insights into the key questions and concerns surrounding the Act. While some of these issues are complex, we're committed to helping you navigate this new landscape.

To support your organisation, we have developed ProAct 23, a set of tools designed to assist with understanding and complying with the Act in England and Wales.

ProAct 23 For You

Tailored training

Sometimes the best way to learn and adapt is to get all of your team together in one room, to create a safe space for the team to discuss how they are implementing the Act, with a coach to provide guidance on implementation of the Act.

For those seeking this hands-on approach to training, we can tailor packages which best meet your needs, options include:

- Access to the Procurement On Demand package above
- Tailored training session(s) on your preferred topics and questions
- Flexible delivery options (in person or via Teams/Zoom)
- Supporting materials tailored to your organisation's needs
- A quarterly digest and/or hotline addressing common questions, offering general advice on recurring themes (note: we cannot provide specific legal advice without clearing conflicts)

How can I access ProAct 23 For You?

ProAct 23 For You is a tailored package for your organisation. If you choose to have training, this could be face to face or over Teams, as you prefer, and will be led by Emily Heard, with input from other members of the procurement team where appropriate.
