

# Data Privacy Compliance Audit

## Supporting your business in meeting data protection obligations, mitigating risk and maintaining stakeholder trust.

We understand that keeping pace with data privacy obligations can be a significant challenge, particularly considering evolving regulations and a dynamic threat environment. Yet maintaining compliance is essential to protect your brand, reputation and customer confidence.

To support our clients in navigating this landscape, we've developed a flexible Data Privacy Audit service designed to assess and enhance your current data protection measures.

## How We Help

Managing day-to-day data flows and processing activities, especially where large volumes of personal or sensitive data are involved, is increasingly complex. Our specialist data privacy lawyers deliver clear, pragmatic advice, helping your business stay compliant in a cost-effective and minimally disruptive way.

We take a tailored, commercially focused approach, offering scalable support from light-touch guidance to comprehensive risk and governance solutions. Whether you choose to implement our recommendations internally or prefer ongoing support, we help establish and maintain a strong and lasting data protection culture across your business.

# Our Audit Packages

We offer three levels of audit to suit businesses of all sizes and risk profiles:

## Audit – Essentials

**Best suited for start-ups, small businesses, and sole traders**

A streamlined review of your data governance, designed to provide clear, actionable guidance with minimal disruption.

Includes:

- Short-form questionnaire to assess current practices
- Review of:
  - the role of the business and its compliance with data privacy legislation;
  - all categories of personal data collected and processed by the business;
  - all data flows and connected third parties (e.g. suppliers, customers);
  - policies and procedures including the management of data subject rights; and
  - data breach management;
- RAG-rated audit report identifying gaps and key risks
- Roadmap to compliance with prioritised and optional recommendations

## Audit – Standard

**Ideal for medium to large businesses, or those processing high volumes or sensitive data**

A more in-depth audit covering all elements of the Essentials package, plus:

- A bespoke questionnaire tailored to your business
- Comprehensive review and analysis of:
  - Existing data protection policies and procedures
  - all data privacy related contractual obligations
- Provision of template documentation for adaptation

## Audit – Premium

**Ideal for larger businesses, especially those handling special category data and/or operating internationally**

A detailed, department-by-department audit providing deep insight into compliance across the business.

Includes everything in the Essentials and Standard packages, plus:

- Onsite visits (where preferred)
- Tailored questionnaires for key business functions (e.g. HR, Finance, Marketing)
- Function-specific RAG-rated reports
- Executive summary with a business-wide view of risks and actions
- Full data mapping of all personal data flows
- Review and recommended updates to contracts and policies
- Staff training delivered in-person or remotely on key compliance topics
